

HEMO LINE

MEDICAL

The Hemo line is comprised of a range of multi-function treatment chairs specifically designed for haemodialysis, peritoneal analyses, plasmapheresis, oncology, chemotherapy and rehabilitation. Developed in collaboration with industry experts, the Hemo line treatment chairs represent essential and reliable treatment tools to be employed wherever the patient's comfort and safety are of the utmost importance. Each model offers backrest, leg rest and tilt (Trendelenburg position) adjustments, as well as minimum and maximum height adjustments, thus ensuring maximum ease of access for the patient.

The Hemo line chairs all feature extremely durable and easy-to-clean anatomic mattresses, all of which are made with Class 1 IM fire-resistant upholstery for the medical sector.

La linea Hemo raggruppa una gamma di poltrone multifunzionali particolarmente indicate per emodialisi, analisi peritoneale, plasmaferesi, oncologia, chemioterapia e riabilitazione. Messe a punto grazie alla collaborazione di esperti del settore, le poltrone Hemo rappresentano oggi uno strumento affidabile e indispensabile di intervento laddove comfort e sicurezza sono veramente indispensabili. Tutti i modelli hanno la possibilità di regolare la schiena, le gambe, il basculante (trendelenburg) nonché l'altezza minima e massima garantendo così la totale accessibilità al paziente. Le poltrone della linea Hemo hanno il materasso anatomico, realizzato con rivestimento ignifugo classe 1 IM per il settore medico, estremamente durevole e di facile igienizzazione.
